

## **Convert to MOAA Life Membership Today and Save Some Real Money**

The annual cost of a MOAA national membership for active, retired and former officers for 2011 is \$34, which is projected to increase about 9% every three years into the future. Using this projection, by 2014 MOAA annual dues will be \$37; by 2017 - \$40; and so on. The table below shows the current cost of a MOAA Life Membership available to you with the guaranteed "chapter-members-only" 10% discount. The table also projects what your lifetime savings will be if the "current" rate of \$34 continues until you reach age 90. Of course, your actual savings may be much greater, given the expected periodic increases in MOAA annual dues (discounted cost and lifetime savings for "auxiliary" members will be less than those shown for "officer" members).
